MEMORANDUM FOR THE RECORD

FROM:

[REDACTED]

Policy and Plans Group

SUBJECT: Presidential Review of the Classification System

1. On this date, the C/SSC contacted the writer telephonically to offer comments concerning subject.

2. The C/SSC suggests that inquiry be made to determine if the new Executive Order will deal with SCI and, if so, will a comprehensive schedule for declassification be established, separate and distinct from the defense classification system. Related to this would be provisions for protection of SCI and, for that matter, collateral intelligence information.
